Troubleshooting High Performance Joint Sealants

PRESENTATION DESCRIPTION

This course will go over the different types of sealants and their uses, proper joint design, the critical steps in sealant installation, and how to recognize and understand joint failure.

LEARNING OBJECTIVES

Learning Objective 1: Properly and safely design moving joints

Learning Objective 2: Evaluate different types of sealants relative to their type and uses including odors and personal safety.

Learning Objective 3: Understand the critical steps in sealant installation including health and safety during installation.

Learning Objective 4: Recognize and understand the causes of joint sealant failure

PARTICIPANTS

Architects, specifiers, owners, contractors, and other construction professionals. Ideal seminar size is six to 20.

PRESENTATION METHOD

The presenter uses a PowerPoint presentation loaded with photographs.

PROVIDER

Masonry Advisory Council

PRESENTER

BASF

AIA CREDITS: 1.25 LU

LENGTH: 1 Hour

HSW: Yes

A/V Needed: Electrical power and presentation screen. The CES provides the laptop and projector.

COST: There is no cost to the firm for the presentation or the lunches provided.

PRESENTER QUALIFICATIONS

BASF presenters are experienced in construction practices. Their qualifications include formal manufacturer's training and extensive applied fieldwork.
