Designing a Sustainable Masonry Cavity Wall **Building Envelope**

Presenter: Jim or Jeff Lucas; Mortar Net Solutions Reps

This program will help attendees learn how to design masonry cavity wall building envelopes that meet AIA sustainability standards. Participants who complete the program will earn 1 AIA CEU Health Safety Welfare Credit.

At the end of this program, participants will be able to:

- List and understand the AIA's characteristics of sustainable design
- Define the characteristics of a sustainable masonry cavity wall building envelope
- Explain and avoid poor masonry cavity wall envelope design and detailing
- Define and specify appropriate materials for sustainable masonry cavity walls

A Q & A session will follow the presentation, and samples of some of the products and systems mentioned in this program will be available before and after the presentation.

Please contact Jim or Jeff Lucas at 773/731-6857 to arrange a presentation
